

## Voice Smart Networks Invited to Attend 15th Annual TAG Convention

*National Convention for Undisputed Leaders in Unified Communications and Customer Experience*

LOS ANGELES/VENTURA/ORANGE COUNTY/SAN DIEGO — February 24, 2015— Voice Smart Networks, a leading provider of unified communications, announced today that Mark Wadnizak, the company's Partner, will be attending Technology Assurance Group's (TAG) 15<sup>th</sup> Annual Convention. The event will take place on April 19<sup>th</sup>-22<sup>nd</sup> in Savannah, Georgia at the Hyatt Regency. TAG is an international association of independently owned unified communications companies representing nearly \$350M in products and services in the industry.

The purpose of the convention is to bring together the brightest leaders and most progressive thinkers in the technology industry to share best business practices and mutually contribute towards one another's growth. The overarching goal is to unveil and share practices that make each company deliver a better customer experience from start to finish. The event is invite-only and is reserved for elite organizations with a track record of innovation, customer-centric business philosophy and a desire to serve their local community. Each business represented is a pioneer in their respective marketplaces and the discussions will range from emerging technologies to new business practices to advancements in customer experience.

"This event is always packed with new ideas that keep us at the forefront of new developments in our rapidly advancing field," stated Mr. Wadnizak. "We find it very valuable to collaborate with other CEOs, Owners

and high-performers to identify new ways of doing things. We consider it our obligation to attend prestigious events like this because we need to know what's coming down the pipeline and how that's going to affect our customers. When we see new developments before the mass market, we usually can leverage that to accelerate the growth of our customers' businesses before everyone else catches on. This is why we're always one step ahead because we're out there focusing on how we can improve our deployment of advanced technology."

"Experts in voice, managed IT services, security/surveillance, audio visual, structured cabling and managed print solutions will all be in attendance, so every organization will be able to enhance all areas of their business as a result of participating," said Brian Suerth, President of TAG. "One of the keynote speakers, is the world renowned Jeffrey Gitomer, who is an author of several New York Times best sellers. He will be sharing his views on cultivating relationships with today's customer," added Mr. Suerth. "We're looking forward to another successful convention and we're excited about the contributions of high caliber individuals, such as Mr. Wadnizak."

### **ABOUT VOICE SMART NETWORKS**

Founded in 1982, Voice Smart Networks is Southern California's leading data and voice company. The company's mission is to increase its customers' profitability, improve their productivity and give them a competitive advantage by implementing the right technology. Voice Smart Networks is the only provider that protects its customers from the two risks of technology -

obsolescence and cost. As its customers' trusted technology advisor, Voice Smart Networks has earned the position as the market leader and its customers' business through quality products and services.

As a premier member of Technology Assurance Group, Voice Smart Networks is able to fulfill all of its customers' technology needs. This means that the organization is the ultimate resource for business phone systems (VoIP and Session Initiation Protocol (SIP) provisioning), Managed IT Services, Network Security, Video Conferencing and Disaster Recovery.
